

SSCIP Loss Control Video Library

Administered by:
Southwest Risk Services
Loss Control Department
14902 North 73rd St. Scottsdale, AZ 85260
602.996.8810 /TF 888.309.4339 /Fax 602.996.9045

Revised: July 2010

Part I. Introduction

This publication contains a listing of the training videos we have available for loan to SSCIP members. Opinions expressed by the presenters in each tape are solely those of the presenters and do not necessarily reflect the opinions or recommendations of SSCIP or their administrators, Southwest Risk Services (SWRS), or Berkley Risk Administrators Company, LLC (BRAC).

Please take a few minutes to read the section that discusses the borrowing policy. It outlines the steps you must follow to borrow a video for training your staff.

We welcome any comments or suggestions regarding this document. It will be updated periodically as new tapes are added to the Loss Control Video Library.

Part II. Borrowing Policy

Videos may be kept for up to four weeks from the date of receipt. Videos may be ordered in the following ways:

❖ **Order Form**

- Fill out a Video Request Form
- E-Mail the request to Susan Weiss sweiss@berkleyrisk.com or via fax (602) 368-6565
- You may make photocopies of the blank form at the back of this document.

❖ **Telephone**

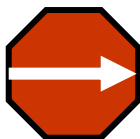

- Call Southwest Risk Services and ask for Susan Weiss at (602) 368-6613 to request a video by telephone.

Please request your videos at least one to two weeks before you plan to use them for training. This will allow adequate time for them to be mailed to you.

If applicable, rewind all videos before returning them. Insure each video for \$100 to protect them from being lost in the mail. This will prevent you from incurring the expense of replacing a video that is lost in its shipment.

Please return videos by their due dates so that others can receive their videos by their requested dates. If you need to keep a tape beyond its due date, please contact your Loss Control Consultant or Susan Weiss.

Federal copyright laws protect the videotapes available through the Loss Control Video Library. You may **NOT** make copies of these videos.

Part III. Video Selections

This section contains the listing and descriptions of the available videos. Please note that we cannot guarantee availability of any specific videos. They will be sent out to those who request them on a first-come, first-served basis.

V = Video / D =DVD / B = Both

AMERICANS WITH DISABILITIES /CIVIL RIGHTS ISSUES

A1	V ADA TITLE 1~ EMPLOYMENT Discusses the Americans with Disabilities Act (ADA) and its requirements regarding employment. Includes prohibition of discrimination against persons with disabilities and the requirements for employers to make reasonable accommodations.	120:00
A2	V ADA TITLE II~ GOVERNMENT SERVICES Discusses the Americans with Disabilities Act (ADA). Includes nondiscrimination and reasonable accommodation requirements for government services and programs.	105:00
A3	V ADA EMPLOYMENT Georgia Pacific Co.	43:00
A4	V ADA TITLE II~ WORK IN PROGRESS How a city is making facilities and programs accessible.	26:00
A5	V ADA ACCESSIBLE DESIGN Discusses accessible design under the Americans with Disability Act's Accessibility Guidelines	19:34
A6	V ADA ACCESSIBLE SIDEWALKS~FOR THE BLIND Design issues for pedestrians who are blind.	12:19
A7	V ADA ACCESSIBLE SIDEWALKS ~ FOR WHEELCHAIRS Design issues for pedestrians who use wheelchairs.	10:00
A8	V ADA ~ An Introduction to UFAS Introduction to the Uniform Federal Accessibility Standards. Similar to ADA AG's, but adopted prior to the ADA and required for those dealing with government grants and contracts.	08:49
A9	V ADA~ Technical Requirements of UFAS	17:10
R1	V RIGHT-TO-KNOW ~ WORKERS AND THE COMMUNITY Describes the purpose of Emergency Planning and the Right-To-Know Act. Review of several provisions of SARA Title II and Local Emergency Planning Committees.	13:21
N2	V NOBODY'S BURNING WHEELCHAIRS Explains what the Americans with Disabilities Act of 1990 is, explores attitudes toward people with disabilities, and shows that disabled persons can make contributions in a mainstreamed society.	05:00

ACCIDENT PREVENTION & INVESTIGATION

A10	V ACCIDENT INVESTIGATION This program on "Accident Investigation" shows employees steps that are taken in an accident investigation, and highlight how important it is for employees to fully cooperate with any inquiry. They also point out that while an investigation's focus is to determine the cause of an accident, the overall goal is to prevent similar accidents from happening again.	08:06
A11	V ACCIDENT INVESTIGATION ~ ANALYSIS This video reviews the four main stages of an accident investigation and stresses the benefits of a proper accident investigation.	25:00

ID #		Title	Length
V = Video / D =DVD / B = Both			
ACCIDENT PREVENTION & INVESTIGATION			
A12	V	IT WON'T HAPPEN TO ME: ACCIDENTS IN THE WORKPLACE Learn to identify the factors that can lead to accidents, describe the relationship between accidents and unsafe acts and describe how to prevent accidents.	15:00
A16	V	ACCIDENT INVESTIGATION - 2008 Accident investigations are important in maintaining a safe, productive workplace.	13:00
B6	V	BACKHOE SAEFTY This program is filled with real world tips and advice on safe backhoe operation focusing on tractor-loader backhoes and written in cooperation with over 20 experienced operators.	05:00
C9	V	CONFINED SPACE TRAINING	21:34
C10	V	CONFINED SPACE TRAINING ~ "WATCH THAT SPACE" <ul style="list-style-type: none"> • Hazards in Construction • Hazards in Factories • Hazards in Shipbuilding 	
E5	V	ELECTRICAL SAFETY ~ LIFE & DEATH This video starts on the scene of an accident and works backwards. With the characters and audience playing the part of an accident investigator, they use the clues to solve the mystery of how the incident occurred.	19:00
E6	V	ELEVATED WORK Outlines precautions to follow when working on roofs. Discusses guardrails and other protective barriers.	11:57
E10	V	BASIC ELECTRICAL SAFETY This program examines the theory and practices of electricity and how to work smart. It examines the types of electrical shock, how to avoid them, the usage of CPR, and other lifesaving techniques.	06:30
F1	V	FALL ARREST SYSTEMS Whether you use a personal fall arrest system every day or only once in your life, this is for certain, the system won't do any good unless it is used properly.	18:00
F2	V	FALL PROTECTION ~ THE BASICS Describes the purpose of fall protection and gives examples of passive and active fall protection devices.	09:58
F3	V	HIGH IMPACT: FALL PREVENTION A commitment to fall prevention safety is the key to maintaining an injury-free workplace or even saving a life. Filled with re-creations of actual accidents from OSHA files, this film has proven to be a highly effective training tool through its scared-straight, graphic nature.	19:00
F6	D	FORKLIFT SAFETY ESSENTIALS A forklift is a powerful and safe tool when used well by a trained operator. However, forklift safety is often not well understood by many operators and this can increase the risk of accidents. Training operators in the principles of forklift safety can prevent accidents from occurring at your workplace.	26:00

ACCIDENT PREVENTION & INVESTIGATION

F10	V	FORKLIFT 2000	
	A	PART 1: THE NEW RULES	59:32
	B	PART 2: RUNNING FORKLIFTS INSIDE	59:32
<p>Comply with OSHA's 1910.178. Provides all the academic training requirements for the OSHA standard. Includes engineering, technical information, tipovers/turnovers, operating rules, operator maintenance and more.</p>			
G2	V	GROUNDSKEEPER SAFETY ~ INCLUDING PESTICIDES	11:41
<p>Discusses why groundskeepers should wear full body protection. Presents three basic steps to help reduce the effects of heat on the job. Basic hygiene habits are also addressed.</p>			
H11	D	HI IMPACT: HAND SAFETY	17:00
<p>A commitment to hand safety is the key to maintaining an injury-free workplace or even saving ones life. Filled with re-creations of actual accidents from OSHA files, this film has proven to be a highly effective training tool through its scared-straight, graphic nature.</p>			
H8	V	HIGHWAY CONSTRUCTION AND MAINTENANCE SAFETY	07:41
<p>Identifies positions for "flaggers" to stand in relation to traffic and barricades. Also discusses traffic controls and signage.</p>			
L6	V	HIGH IMPACT: LOCKOUT/TAGOUT SAFETY	19:00
<p>A commitment to lockout / tagout safety is the key to maintaining an injury-free workplace or even saving ones life. Filled with re-creations of actual accidents from OSHA files, this film has proven to be a highly effective training tool through its scared-straight, graphic nature.</p>			
L7	B	LOCKOUT/TAGOUT	06:52
<p>An overview of Lockout/Tagout and requirements for controlling hazardous energy sources</p>			
L8	V	LOCKOUT/TAGOUT ~ JUST DO IT!	08:36
<p>Shows an example of a potential accident as a result of failure to comply with lockout requirements. Outlines required procedures.</p>			
L9	V	LOCKOUT/TAGOUT ~ A LIFE ON THE LINE	06:34
<p>Examples of accidents and their results. Several examples of lockout/tagout are shown.</p>			
L10	V	LOCKOUT/TAGOUT ~ YOU HOLD THE KEY	15:00
<p>Describes what the lockout/tagout requirements are, why they're important, and who needs them. Discusses various types of hazardous energy control devices.</p>			
L12	V	LOCKOUT/TAGOUT	06:52
<p>Created specifically to assist facilities in complying with the employee training requirements of OSHA's Lock-Out/Tag-Out regulation, this program discusses the OSHA Lock-Out/Tag-Out Standard, including the Energy Control Plan using environments familiar to employees working with both electric and hydraulic pneumatic equipment and point sout specifically where Lock-Out/Tag-Out procedures should be applied.</p>			
M2	V	MACHINE CUTTING, GRINDING AND SANDING	07:23
<p>Describes precautions to be used when working with sharp objects such as blades and rotating equipment. Grinding and sanding are discussed, including physical harm that could come from the use of these tools.</p>			

ID #		Title		Length
------	--	-------	--	--------

V = Video / D =DVD / B = Both

ACCIDENT PREVENTION & INVESTIGATION

M3	V	MACHINE SHOP SAFETY Reasons why machine operators should wear proper eye protection. Addresses appropriate work attire in these locations.		08:44
M4	V	MATERIAL HANDLING & STORAGE Discussion of safe materials handling and storage procedures. Shows examples of safe techniques. Material Safety Data Sheets are also emphasized.		09:16
S13	V	SUPERVISOR SAFETY RESPONSIBILITY Supervisors' commitment to safety makes or breaks any corporate safety plan and directly impacts productivity results and costs. This program shows a diverse workforce and effectively uses statistics to present examples to supervisors and team leaders.		07:16
T4	V	TRAINING RESPONSIBILITIES		05:00
T5	B	TRENCHING & SHORING All excavations are hazardous because they are inherently unstable. Workers can be seriously injured or killed if the sides of a trench collapse. Unsafe trenches are the major factor in many trenching hazards. Trenches do not have to be deep for accidents to occur. Serious injuries are possible in shallow trenches (under 5 feet) as well.		19:22
T7	B	TRENCHING & SHORING SAFETY Help employees avoid accidents by teaching them safe excavation-site procedures. This video focuses on OSHA-regulated safety measures and covers protection from hazards with water accumulation and hazardous atmospheres, and the design of support, shield, and other protective systems.		06:00
W1	V	WAREHOUSE SAFETY Describes three areas of activity found in a warehouse. Discusses fork truck capacities, precautions to take when welding and some basic storage procedures.		09:09
W5	V	WELDING HAZARDS This video teaches employees to recognize and respect the potential hazards of welding and motivates them to use best safety practices to prevent property damage and injury.		05:30
W6	V	WELDING SAFETY This training program will remind your employees that there are indeed a number of hazards associated with welding, and provide the information they need to work safely when involved with welding operations.		05:00

BLOODBORNE & AIRBORNE PATHOGENS

A13	V	AIDS & THE LAW ENFORCEMENT CONCERN		120:00
B1	V	BLOODBORNE PATHOGENS Whether you work in transportation, manufacturing, retail, government, emergency services or any other occupation; one day you will have to deal with a situation that involves potentially infected blood. The decisions you make and the actions you take could literally make the difference between life and death.		11:00

ID #	Title	Length
------	-------	--------

V = Video / D =DVD / B = Both

BLOODBORNE & AIRBORNE PATHOGENS

B2	V BLOODBORNE PATHOGENS Discusses personal protective equipment and how it reduces your risk of exposure to BBP. Some examples of PPE are discussed.	19:00
B4	V BLOODBORNE PATHOGENS ~ POST EXPOSURE FOLLOW-UP Discusses bloodborne pathogens and how they are carried in the blood. Outlines what should be done if someone is exposed to blood or other bodily fluids and the reporting requirements that must be followed in the event of an exposure	10:55
B7	D BLOODBORNE PATHOGENS: TAKE PRECAUTIONS (English & Spanish) This valuable program teaches employees to protect themselves from bloodborne pathogens by learning about the three types of viruses and how they spread, plus what they can do to prevent infection, from avoiding exposure to blood to cleaning up after incidents occur. • HIV, HBV and HCV • Incidents and injuries • Common-sense precautions	13:00
C1	V COMMUNICABLE DISEASES ~ INFECTION CONTROL This education & infection control and prevention program is designed for all employees. It's everyone's job to follow policies & procedures through early recognition and prevention strategies to help stop the spread of potential infectious pathogens.	
M8	D MRSA AWARENESS (English & Spanish) There is widespread concern over the risk of exposure to the deadly MRSA infection. This staph infection is not confined to hospitals anymore and has become a new threat known as community-associated MRSA. Help your employees protect themselves and their families with the information on how exposure occurs and the best ways to protect themselves in this timely training program.	
N1	V WORKING TOGETHER ~ NEEDLE STICK PREVENTION Use this video to train employees on the best safety practices to avoid needlestick injuries and their associated consequences. Create a safe work environment for your employees by providing them with the tools to keep them safe and informed.	

DRIVING / DEFENSIVE DRIVING

D1	V DEFENSIVE DRIVING ~ A CRASH COURSE Review the basic defensive driving techniques with you employees. From planning and preparing before pulling out to practical driving procedures in the city, on the freeway and in rural areas, this training covers it all.	16:00
D2	V DEFENSIVE DRIVING ~ A CRASH COURSE (Spanish) Review the basic defensive driving techniques with you employees. From planning and preparing before pulling out to practical driving procedures in the city, on the freeway and in rural areas, this training covers it all.	17:00
D3	V DEFENSIVE DRIVING ~ "WHAT'S YOUR DECISION" An interactive video quiz for defensive driving. Areas covered include being forced into the guardrail, hydroplaning, dealing with emergency vehicles, dealing with drunk drivers, braking on snow, rear-end collisions, railroad safety, signaling, intersections, passing, head-on collisions, residential street hazards, dealing with floodwaters, driving off the shoulder, and air bag deployment.	83:00

ID #	Title	Length
------	-------	--------

V = Video / D =DVD / B = Both

DRIVING / DEFENSIVE DRIVING

D5	V	DRIVING SAFETY Motor vehicle crashes are the number one cause of death on the job. Most employees travel the roads every day... in cars, vans or trucks... many of them on company business. Insure your employees are properly trained in safe driving techniques to minimize your companies' risk exposure and protect your employees' health and safety. This excellent training video provides the information employees need to drive cars, vans and small trucks safely, both on and off the job.	15:50
D6	V	DRIVING SAFETY (Spanish) Motor vehicle crashes are the number one cause of death on the job. Most employees travel the roads every day... in cars, vans or trucks... many of them on company business. Insure your employees are properly trained in safe driving techniques to minimize your companies' risk exposure and protect your employees' health and safety. This excellent training video provides the information employees need to drive cars, vans and small trucks safely, both on and off the job.	15:50
D10	V	SAFETY TECHNIQUES FOR TYING DOWN WHEELCHAIRS (DRIVING) Key in this video is how to prevent wheelchairs from moving during transit. Other highlights include examination of different types of wheelchairs, different types of securement systems, demonstrations of tie down techniques and back safety tips.	18:00
D-11	D	BEFORE YOU TURN THE KEY (English & Spanish) Brush up on what drivers should do before they get in a vehicle and turn the key. Describes the incidents that could have been avoided if people had only taken the time to think and pay attention to what was in and around their cars.	20:00
D-12	D	DRIVEN TO DISTRACTION This groundbreaking program illustrates just how dangerous distracted driving can be. The main character is the embodiment of the various distractions that accompany drivers. Watch as he gleefully plots and plans to take attention from the road. The impact of this program is powerful and memorable.	16:00
D-13	D	EMOTIONAL WRECK (English & Spanish) Aggressive driving is responsible for 1500 deaths each year. Give your employees this eye-opening look at what constitutes aggressive driving, what contributes to it and how one driver's acts can cause a domino effect of bad decisions that may lead to tragedy. After watching this dramatic expose of the dangers of impatience, selfishness, obliviousness and competitiveness behind the wheel, your employees are sure to take a deep breath and drive as if their lives depend on it.	23:00
D-14	D	STREET SMARTS (English & Spanish) Have your employees forgotten the basic rules of safe driving? Maybe their driving safety knowledge is out-of-date? Bring your employees back to the basics of safe driving with Street Smarts. This program will boost your workers' safety awareness and ensure their well-being by reminding them how their lives depend on following the "rules of the road". Freshen up their driving know-how and help save their lives.	18:00
D-15	V	TRANSPORTING SPECIAL NEEDS KIDS WITH COMMITMENT & CARE This helpful program presents situations for bus drivers to show sensitivity to behaviors and attitudes of special needs children including commitment to safety, orders and rights; effective observation of behavior and choosing the appropriate intervention.	18:00
D-16	V	UNDERSTANDING THE NEEDS OF SPECIAL PASSENGERS Interviews with a number of disable individuals concerning how they would like to be treated.	

ID #	Title	Length
------	-------	--------

V = Video / D =DVD / B = Both

DRIVING / DEFENSIVE DRIVING

D-17	V	SERVING PASSENGERS WITH DISABILITIES This video is designed for training drivers to serve persons with disabilities and discusses provisions made by the Americans With Disabilities Act (ADA).	
D-18	V	EVACUATING ELDERLY & DISABLED PASSENGERS FROM PUBLIC TRANSPORTATION VEHICLES Demonstrates various safety techniques to be used in emergency situations for the evacuation of the disabled and mobility impaired using small, urban, rural and specialized transportation services. Emphasis is placed on enhancing the bus operator's driver.	
D19	V	DEFENSIVE DRIVING ~ 15- PASSENGER VANS Fatal rollovers and other incidents involving 15-passenger vans occur because the drivers are inexperienced and untrained. This valuable program provides drivers with important safety tips to help them operate the vans safely protect passengers and avoid incidents.	13:00
D20	D	THE MOST COMMON COLLISION The Most Common Collision" showcases three distinct backing collisions as described by the drivers involved in each. The ability to hear and see the drivers' perspectives helps viewers dig into the root causes of each incident. Animated recreations of each collision help to further illustrate and identify both cause and prevention respectively. Mastering the principles covered in this video provides viewers with the skills to significantly reduce their potential for backing and parking mistakes.	20:00
D21	V	MOTOR VEHICLE AWARENESS Motor vehicle accidents are the single largest cause of occupational fatalities. Motor Vehicle Awareness: Easy as ABCD will help your company protect its employees who must drive, and consequently reduce its expenses. This program will complement your current driver-safety awareness program.	19:00
N3	V	NIGHTTIME TRAFFIC CONTROL ZONES This videotape examines the factors that make nighttime work zones more dangerous to drivers and workers than daytime work zones. Simple cost-effective devices that can enhance safety during nighttime work zones are presented.	18:00
R5	V	REDUCE ROADWAY LIABILITY	140:00
S5	V	SCHOOL BUS TRAINING	
S8	V	SAFETY BY ASSOCIATION~ TRAFFIC SAFETY	10:00
T2	V	TRAFFIC SAFETY Describes the concept of "road management". Discusses proper stopping and gives specific examples of where drivers should be scanning ahead of the path of their vehicles	08:20
T3	V	TRAFFIC SIGNS & MARKINGS	60:00

ID #	Title	Length
------	-------	--------

V = Video / D =DVD / B = Both

DRUG AND ALCOHOL ABUSE PREVENTION

D7	V DRUG USE AND ABUSE Explains the effects of drug use on the environment. Presents some possible solutions to drug problems occurring at the workplace.	08:30
D8	V DUI – MARKET HIGHLIGHTS	12:52
R2	V RECOGNIZING DRUG ABUSE ~ A SUPERVISOR’S GUIDE Tape 1 of 3	60:00
S3	V SALIVA ALCOHOL TESTING Tape 2 of 3	12:22
G1	V GEARING UP FOR DRUG FOR ALCOHOL TESTING Tape 3 of 3	43.00
U1	V UNDER THE INFLUENCE ~ ALCOHOL IN THE WORKPLACE Discusses the short-term effects of alcohol in the workplace. Describes risks of injuries to other workers who work with someone under the influence of alcohol.	06:44

ERGONOMICS AND HEALTH ISSUES

C2	V COMPUTER ERGONOMICS ~ MAKE YOURSELF COMFORTABLE	14:30
C3	V COMPUTER FITNESS ~ HOW TO WORK COMFORTABLY, PRODUCTIVELY AND SAFELY Discusses modifications to work stations and provides demonstrations of exercises to stretch body parts (neck, wrists and shoulders).	19:05
C4	V CARPAL TUNNEL SYNDROME Describes Carpal Tunnel Syndrome characteristics in terms of the body. Reviews the causes and symptoms of Carpal Tunnel Syndrome (CTS).	09:07
E1	V ERGONOMICS ~ JOB SAFETY ANALYSIS Defines ergonomics and its relationship between people and machines. Job Safety analysis (JSA) is presented as a means to reduce body stress when using power tools and other workplace machines.	15:50
E2	V ERGONOMICS FOR SUPERVISORS Discusses Cumulative Trauma Disorders (CTD) in various work environments. Outlines a program for addressing various problems including ergonomic teams, analysis of work areas, understanding risk factors, recognizing early symptoms, modifying the workplace, communications and early intervention.	21:00
E3	V ERGONOMICS IN THE WORKPLACE Describes the risk factors that can lead to cumulative trauma disorders (CTDs) as well as describing four common cumulative trauma disorders, the causes, early symptoms and the steps you can take to minimize each of the risk factors associated with cumulative trauma disorders.	18:30
E4	V ERGONOMIC TOOLS Defines ergonomics, describes Carpal Tunnel Syndrome (CTS) and the dangers of using ergonomic tools improperly.	13:16

ID #	Title	Length
V = Video / D =DVD / B = Both		
ERGONOMICS AND HEALTH ISSUES		
E9	V OFFICE ERGONOMICS Discusses the science of tailoring a job to the employee. Geared primarily to computer workstations. Emphasizes how physical stress is placed on specific parts of the body by poor positioning .Includes anatomic diagrams of the stress on the hand, wrist, spine, as well as, the definition of an "injury".	17:45
E12	V OFFICE MANUAL HANDLING Back structure and musculoskeletal disorders (MSD) are explained and methods for identifying, assessing and controlling manual handling risks related to MSD are covered. Case studies with solutions applicable to typical office manual handling problems are used to illustrate correct manual handling procedures.	17:00
H4	V HEAT STRESS Working in hot environments with strenuous physical activity causes heat reactions in the body. Teaches workers how to protect themselves.	12:00
H13	D HEAT STRESS FOR PUBLIC EMPLOYEES: SEEING RED Heat stress, heat stroke, heat rashes, heat cramps – all are dangerous to your employees. This training DVD will give them the knowledge they need to avoid the dangers of working in hot, humid conditions. Training will include: acclimatization, hydration, proper clothing and signs of heat fatigue.	14:00
M5	V MEDICAL MONITORING ~ HOW IT WORKS Describes what makes up a baseline medical exam. Some of the topics presented include blood pressure, why lymph glands are checked, and how often blood and urine samples should be taken.	09:16
M7	V MUSCLE STRAINS & SPRAINS A sprain is an injury to ligaments, while a strain is an injury to muscle or tendon tissue. Sprains and strains occur when the body is put under physical stress. In these situations, muscles and joints are forced to perform movements for which they are not prepared or designed. An injury can occur from a single stressful incident, or it may gradually arise after many repetitions of a motion.	
E11	V LISTEN TO YOUR BODY Office Workstation Design	
B5	V BACK SAFETY Gives some suggestions on how to avoid back injuries when lifting heavy objects.	
D9	V DOG BITE PREVENTION From nips to bites to actual attacks, dog bites are a serious problem. Dog bite victims requiring medical attention in the United States number approximately 800,000 annually. Countless more bite injuries go untreated. On average, about a dozen people die each year from dog bite injuries. Fortunately, there are steps we can take to address this problem.	20:00
H10	D HEALTH & HYGIENE ESSENTIALS FOR INDUSTRY The consequences of poor health and hygiene practices in industry can result in the spread of infectious diseases and increased sick days for personnel. An organization can minimize the risk and spread of infectious diseases by implementing appropriate infection control measures.	19:00

ID #	Title	Length
------	-------	--------

V = Video / D =DVD / B = Both

FIREFIGHTER SAFETY

F4	B	FIREFIGHTER II ~ LEGAL ASPECTS OF EMERGENCY VEHICLE OPERATIONS	
F5	B	FIREFIGHTER II ~ EMERGENCY VEHICLE OPERATIONS (Part 1 & 2) Examines state vehicle and traffic laws regarding emergency vehicle operations. Discusses rights and obligations of operators and the difference between civil and criminal liability.	
F8	V	PRE TRIP INSPECTION OF FIRE APPARATUS Gives an overview of how to check the apparatus, including tires, fluid levels, gauges, lights, and other systems.	
F11	V	FIRE EXTINGUISHER TRAINING	06:00

HAZARDOUS MATERIALS / PERSONAL PROTECTIVE EQUIPMENT

A14	V	ARIZONA BLUE STAKE Discussion of the Arizona requirements to mark the locations of underground facilities and who to call before digging.	
A15	V	ASBESTOS REGULATIONS	
E7	V	EYE PROTECTION (Non-humorous)	12:00
E8	V	EYEWASH STATIONS & SAFETY SHOWERS Discusses causes of injuries to eyes when working around chemicals. Describes safety showers and eyewash station design.	08:27
F7	V	FIRST ON THE SCENE	31:00
C8	V	COMPLETE LINE OF FOOTWEAR Explains why street shoes are not considered safety shoes. Presents ANSI Standards for foot protection based on specific work environments.	08:23
H1	B	HAZCOM ~ ACIDS & CAUSTICS Discusses the types of personal protective equipment (PPE) that should be used when working around corrosives.	17:40
H2	B	HAZCOM ~ REDUCING EXPOSURE Reviews chemical exposure to the body. Discusses health effects as a result of exposure to different types of hazardous chemicals.	12:05
H3	B	HAZCOM ~ USING MSDS'S Presents the basic information found on a Material Safety Data Sheet (MSDS). Not all MSDS's are formatted the same and this video describes the different versions.	12:05
H5	V	HAZMAT ~ CHLORINE & CYANIDE HAZMAT technicians discuss the chemical properties and procedures to use when handling chlorine and cyanide emergencies.	

ID #	Title	Length
------	-------	--------

V = Video / D =DVD / B = Both

HAZARDOUS MATERIALS / PERSONAL PROTECTIVE EQUIPMENT

H6	V	HAZWOPER ~ ROLE OF THE FIRST RESPONDER Defines the term "HAZWOPER" and what it stands for. Discusses duties of the First Responder. Gives some examples of signs of incompatible reactions between chemicals.	09:26
H12	D	RIGHT-TO-KNOW ~ UNDERSTANDING HAZCOM Comply with retraining requirements for 1910.1200 and give your employees a clear message: 'Don't neglect chemical dangers on the job!'	07:00
H7	V	HEAD PROTECTION Outlines occupations which require the use of protective headwear. Describes various classes of headwear including, Class A, Class B, Class C, and the use of "bump" caps.	06:54
P15	B	PERSONAL PROTECTIVE EQUIPMENT ~ ELECTRICAL Describes some of the personal protective equipment required for electrical work. Discusses the use of gloves, insulating mats, protective eyewear, and head protection.	10:02
P16	B	PERSONAL PROTECTIVE EQUIPMENT ~ PUT IT ON! Discusses the conditions which require the use of hard hats or helmets, hearing protection, and protective eyewear.	09:56
P17	V	PERSONAL PROTECTIVE EQUIPMENT ~ HIGH IMPACT A commitment to wearing the required PPE is the key to maintaining an injury-free workplace or even saving a life. Filled with recreations of actual accidents from OSHA files.	19:00
P18	V	PROTECTIVE CLOTHING Identifies basic characteristics for different levels of protective clothing. Reviews shields, goggles and disposable PPE.	12:12
P19	V	PROPER USE OF COMPRESSED AIR Humorous presentation of compressed air safety including, storage, use, transportation o compressed air.	07:51
P20	V	PAVEMENT MARKING INSPECTION ~ TWO PART EPOXY This video covers the basics of two-part epoxy pavement marking materials, including: material preparation; weather and temperature restrictions; pavement preparation; workmanship; retroreflectivity; and documentation.	20:00
P21	V	PAVEMENT MARKING INSPECTION ~ THERMOPLASTIC	21:00
S4	V	SAFETY FIRST WITH CHLORINE Covers proper procedures that can prevent a deadly accident, and increase awareness of this hazardous chemical.	22:00

ID #	Title	Length
------	-------	--------

V = Video / D =DVD / B = Both

POLICE / LAW ENFORCEMENT

C5	V	CRISIS ON CAMPUS ~ MASS EMERGENCY TRAINING This video reviews the tragedy at Columbine High School in April of 1999 along with how to develop an effective response plan to a potential crisis. Some graphic scenes.	30:00
C6	V	COUNTER ASSAULT & SURVIVAL TRAINING ~ FIGHTING THROUGH PEPPER SPRAY	
I 1	V	IN THE LINE OF DUTY – TROOPER COATES SHOOTING One of the most powerful and emotional law enforcement training videos ever produced. A veteran trooper is killed along a South Carolina highway, despite the fact that he shoots and hits the suspect five times.	32:00
I 2	V	IN THE LINE OF DUTY – HIT AND RUN A South Carolina State Trooper was nearly killed by a drunken motorist while he was on the side of a highway making a traffic stop. Also, a Georgia State Trooper is severely injured by a drunken motorist while in the process of citing a motorist during a late-night traffic stop. Critical issues analyzed and explored.	30:00
I 3	V	IN THE LINE OF DUTY – IDAHO HIGH SPEED PURSUIT Multi-jurisdictional high-speed chase in Idaho leads to shoot-out with suspected bank robbers.	27:00
I 4	V	IN THE LINE OF DUTY– JACK IN THE BOX Officers in Livonia, Michigan are startled to find a gun-toting woman in the trunk of a car during a traffic stop following an armed robbery.	27:00
P6	V	POLICE SUPERVISORY ~ RESPONSIBILITY AND LIABILITY MGMT	145:00
P8	V	POSITIONAL ASPHYXIA, SUDDEN DEATH AND TRANSPORTING SUSPECTS	29:07
P9	V	PURSUIT AND DEFENSIVE DRIVING	25:00

SCHOOL AND PLAYGROUND SAFETY

R3	V	RECREATIONAL SAFETY Humorous presentation on being safe while having fun. Includes basic safety practices to allow individuals to get the most from their recreational activities. Addresses first aid kits, monitoring children, and other practical hints.	13:15
S9	V	SCHOOL CRIME ~ SOUNDING THE ALARM Examines what happens when crime and violence spill into classrooms and what some schools are doing to combat these problems.	
S10	V	SCHOOL CRIME ~ ESTABLISHING COMMUNICATION This program examines how to establish communication links with students, families, and educators to create a safe school environment.
